Professional Summary

Java Backend Developer with 2+ years of experience in developing enterprise-grade applications using Java, Spring Boot, Spring Security, Hibernate, JPA, and RESTful APIs. Experienced in JWT Authentication, MySQL, MongoDB, Razorpay Payment Gateway, WhatsApp Cloud API integration, and production support. Skilled in designing scalable backend systems, optimizing database performance, and delivering secure, high-quality applications using Agile development practices.

Technical Skills

- **Languages:** Java, SQL
- **Frameworks:** Spring Boot, Spring MVC, Spring Security, Hibernate, JPA
- **API Development:** RESTful APIs, JWT Authentication, Swagger/OpenAPI
- **Databases:** MySQL, MongoDB
- **Frontend:** React, HTML5, CSS3, JavaScript
- **Tools:** Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code
- **Cloud & DevOps:** AWS, Docker (Basic), Nginx, Linux, VPS Server Management, Hostinger VPS, GoDaddy Hosting, Application Deployment, SSL Configuration, Domain & DNS Management
- **Methodologies:** Agile, SDLC, Production Support

Professional Experience

Caryanam India Pvt. Ltd. — Software Developer [Nov 2025 – Present]

- Built and maintained 40+ secure REST APIs using Java, Spring Boot, Hibernate and MySQL.
- Built scalable modules for the Caryanam used-car marketplace platform.
- Worked on JWT Authentication, Role-Based Access Control and API Security, Razorpay Payment Gateway and WhatsApp Cloud API.
- Contributed to projects including Caryanam, DealsKB, RentalChaavi, Vahan FinServ and Hospital Management System.
- Optimized database queries and resolved production issues.

Allocate Software India Pvt. Ltd. — Java Software Developer [Jul 2023 – Aug 2024]

- Developed enterprise backend applications using Java, Spring Boot, Hibernate and JPA.
- Worked on the Insurance (Healthcare) Management System.
- Designed and developed RESTful APIs for policy, customer and claim management.
- Implemented authentication, validation and database operations using MySQL.
- Participated in Agile development, code reviews and production support.

KRISHANA TECHNOLOGY — Back End Developer Intern [Oct 2023 – May 2024]

- Learned and implemented Java, Spring Boot, Hibernate, JPA and MySQL.
- Developed CRUD REST APIs and performed database integration.
- Fixed bugs, tested APIs using Postman and collaborated with the development team.

Projects

DealsKB – Live Auction Platform

- Developed a live auction platform for buying and selling laptops, mobiles, vehicles and other products.
- Implemented JWT Authentication, Role-Based Authorization, Razorpay Payment Gateway and notification services.
- Built REST APIs for product listing, bidding, auction management and payment processing using Spring Boot and MySQL.

Caryanam – Used Vehicle Marketplace

- Developed backend APIs for vehicle inspection, dealer management and customer authentication.
- Implemented secure REST APIs using Spring Boot, Hibernate, JPA and MySQL.
- Integrated WhatsApp Cloud API and optimized backend performance for production deployment.

RentalChaavi – Property Rental Platform

- Developed property listing and tenant management modules.
- Implemented real-time chat using Socket.IO and integrated WhatsApp notifications.
- Designed secure APIs for property owners, tenants and administrators.

Vahan FinServ – Loan Management System

- Developed loan application, document verification and approval workflow modules.
- Implemented role-based access using Spring Security and JWT Authentication.
- Built REST APIs for customer onboarding, vehicle details, loan tracking and document management.

Hospital Management System

- Developed modules for Doctor, Patient, Appointment Scheduling, Pharmacy and Billing.
- Implemented secure authentication, role management and RESTful APIs using Spring Boot.
- Designed database entities using Hibernate and MySQL with optimized CRUD operations.

Education

Master of Computer Science (M.C.S.) — Savitribai Phule Pune University, Pune [2021]

Bachelor of Computer Science (B.C.S.) — Savitribai Phule Pune University, Pune [2019]

Full Stack Java Developer Certification [2022 – 2023]

Comprehensive training in Core Java, Advanced Java, Spring Boot, Hibernate, JPA, REST APIs, MySQL, HTML, CSS, JavaScript, and React.

Certifications

- Full Stack Java Developer Certification
- Spring Boot REST API Development
- SQL & MySQL Database Management

Achievements

- Successfully developed and deployed multiple enterprise-level Java Spring Boot applications in the Automobile, FinTech, Healthcare, and Real Estate domains.
- Implemented secure authentication and authorization using Spring Security and JWT for production-grade applications.
- Integrated Razorpay Payment Gateway and WhatsApp Cloud API to enable secure online payments and real-time customer notifications.

- Delivered scalable RESTful APIs with Hibernate, JPA, MySQL, and MongoDB while optimizing application performance and database queries.
- Contributed to the successful development of projects including Caryanam, DealsKB, RentalChaavi, Vahan FinServ, and Hospital Management System.
- Experienced in Git, GitHub, Maven, Swagger, Postman, Agile Development, API Testing, and Production Support.
- Recognized for resolving critical production issues, improving API performance, and delivering features within project deadlines.
